

2008 SEASON

GLOBAL HARMONY

STONE ROAD ECO FARM - FARM SHARES

What / who is Stone Road eco Farm?

VandenBosch's are committed to having the highest quality produce without chemicals or pesticides. The quality of the earth is one of our most important concerns. Let's not add chemicals back into the earth, but instead re-cycle leaves and non-drug manure. We recycle everything we can here at Stone Rd. Eco Farm and Spa if you do not have a place now to bring your re-cycling to please help us save the earth and bring it here. Some of the favorites we provide are vegetables, fruit, free-range eggs and gourmet garlic. Cleaning products is another one of our specialties we would be glad to share the recipes with you for a chemical free environmental home.

Advertising

Our primary source of advertising comes from word of mouth. We are listed with several websites. Local harvest.com, csafarms.org, eat well.com, miffs.com we have no problem supplying references.

Holidays: If a pick-up falls on holidays we still honor it. Unless, we notify you, pick up is on Thursday 5pm - 7pm.

Safety: We want your trip to the farm to be pleasant so be careful walking down our paths and keep track of your little ones.

Bags: *Please purchase two baskets and put your name on them. Each week you exchange baskets.*

A Word about Deliveries: The folks who come to the farm have the benefit of asking what everything is. We try to provide information to the people we deliver to, at least for veggies that are unusual. If you are getting too much of something, or if you don't like certain veggies let us know and we will try to accommodate you.

**Laura and Tom VandenBosch
